

BOUNCE HOUSE SAFETY RULES & OPERATING INSTRUCTIONS

Safety Rules/Operating Instructions: Upon making your reservation, you will receive an email with an attachment containing a copy of our "Rental Agreement, Waiver & Release of Liability Form, and Operating Instructions." Please read over these documents and feel free to contact us via phone or email if you have any questions. You should fax the waiver and release of liability form back to us prior to the event at 770-819-1991. Our agents will go over the safety rules and operating instructions with you on the day of your event.

1. **Deposits:** There is a \$50 non-refundable fee which will be added to your final bill
2. **Cancellation Policy:** A 48 hr notification of cancellation is required (except due to weather conditions) for complete deposit refund.
3. **Rain/Weather Policy:** Due to insurance regulations we are not allowed to set up in rain, high winds, lightening or situations where the local weather forecast a 40% chance of rain or worse. It is for the safety of our client and their guests when these decisions are made. Do not operate the bounce house when raining or if ground is wet. **Risk of serious injury due to slipping hazards and electric shock from the blower if wet conditions exist.**
4. Only children of compatible age and size should be in the inflatable at the same time. Mixing children of different sizes will greatly increase the risk of injury. Depicted below are the maximum number of participants for each group that may play at the same time:

<u>Unit Size</u>	<u>Ages 5</u>	<u>6 to 9</u>	<u>10 to 12</u>	<u>Over 12</u>	<u>Adults</u>
13x13	6	5	4	3	0
15x15	10	9	7	4	0
Combo Unit	7	6	5	3	0

The maximum weight limit is 400 lbs and 100 lbs per individual.

5. In the event winds exceed (15) miles per hour (mph), lightening occurs, or if it starts raining, turn the motor off after the riders exit, unplug the motor and extension cord from the power outlet and wait for the weather to subside. (Deflate and cover unit and blower with tarp provided by **KID-A-BRATION, LLC**).
6. All jumpers must **REMOVE** shoes, eyeglasses, jewelry, and any sharp or hard objects before entering the bounce house. This could cause injury to other children or to the unit itself.
7. **Absolutely NO** - "silly string", confetti, gum, food, drinks, candy, fingernail polish, paint, make-up, solvents, sticky substances, sprays, or pets are allowed in the bounce house. Failure to follow these guidelines will result in the imposing of an additional cleaning fee.
8. A responsible **ADULT** must supervise the inflatable at all times.
9. Do not allow children to enter the inflatable without **ADULT** supervision. Do **NOT** allow older children to jump with younger children - risk of severe injury.

10. Participants must **NOT** be allowed to play on the step or front apron of any inflatable devices.
11. **NO Piñata's in the bounce house** due to risk of severe injury
Do **NOT** bounce against the sides or near the doorway of the bounce house - serious injury may result. To avoid neck and back injuries - **no wrestling, running, punching, climbing, flips, rough housing or any other aggressive behavior that could injure children allowed** in inflatable.
12. Anyone with head, back, neck or any muscular-skeletal injuries or disabilities, pregnant women, children under 3 years of age, and others who may be susceptible to injury from falls bumps or bouncing are not permitted in the unit at any time. No hanging from the netting on the sides or from the roof of the bounce house. A repair fee will be imposed if the sides/roof is damaged.
13. No use of **ANY** type of balls are allowed in the bounce house.
14. If inflatable begins to lose air, make your way to the exit immediately.
15. **Bounce House MUST be staked to the ground securely at all times to prevent tipping or injury.**
16. Keep children away from the blower unit - risk of electric shock and serious injury from moving parts of the blower.
17. Children's safety depends on you. Your personal supervision is absolutely required. **As the Lessee of the bounce house, the safety of all who come in contact with the bounce house or parts thereof is YOUR responsibility.**
18. Water hoses or water must **NOT** be used in the unit(s), unless specifically manufactured for use with water. **MOVING THE UNIT IS PROHIBITED.**
19. **Methods of Payment:** Cash, Check or Pay Pal. Checks will only be accepted as a deposit. Final payment must be paid by cash or Pay Pal.
20. **Rental Periods:** All rentals are for 4 hours.
21. **Yard Requirements:** The surface on which we set up the inflatable must be flat (no more than 8 inches of slope over a distance of 15 feet) and clear of any sharp objects, such as sticks and rocks, as well as pet droppings. There should be no low hanging tree branches or power lines overhead. We do not take our products up/down steps, hills or steep inclines to set up. If you rent an inflatable and our delivery team encounters one of these hazards which will impede or prevent set up we will set up in the next best location on the property as determined by our staff. In the event the entire location is unsuitable for set up we will cancel and **NO REFUND WILL BE GIVEN**, as it is the consumer's responsibility to read and know these policies before placing an order. Units can not be set up on your neighbor's property or public property without express written consent and a signature from the responsible party for that property.
22. In the event of an emergency, contact **KID-A-BRATION, LLC** immediately at 404-343-5745 or dial 911 for emergency services.
23. **Electrical Requirements:** We recommend a grounded outlet on a dedicated 20-amp circuit breaker to run the blower that keeps the inflatable inflated. USE OF MORE THAN ONE (1) 50-FOOT EXTENSION CORD MAY CAUSE MOTOR TO BURN UP. USE ONLY ONE (1) BLOWER PER FUSE CIRCUIT. **USE OF EXTENSION CORDS OTHER THAN THOSE PROVIDED BY LESSOR IS STRICTLY PROHIBITED.**
24. **Rental Unit Problems:** Should the blower stop for any reason, have all riders exit the unit calmly and safely as previously instructed by **KID-A-BRATION, LLC**

representative during setup. Most often the cause is an overloaded circuit or a piece of debris in front of the blower intake. Reset the circuit breaker and make sure the blower is on a dedicated circuit. Clear any debris away from the blower intake prior to turning the blower on.
